

PETROGLYPH NATIONAL MONUMENT

PUBLIC USE REPORTING AND COUNTING INSTRUCTIONS

Following are detailed instructions for collecting and reporting data to be entered on Form 10-157, Revised, Monthly Public Use Report by **Petroglyph National Monument**. These instructions are effective the date of issuance and will continue in effect unless changed by amendment or by memorandum from the Socio-Economic Studies Division to the superintendent approving a requested change.

Each item below describes the procedures to be followed in collecting public use data and summarizing the various elements of those data for entry on the corresponding line on the 10-157, Monthly Public Use Report.

Recreation Visits

1. An inductive loop traffic counter is installed on the entrance lane to the visitor center. The traffic count is multiplied by the persons-per-vehicle (PPV) multiplier of 2.5 or if the traffic counter is inoperative the number of visitors entering the visitor center will be used.
2. An inductive loop traffic counter is installed on the entrance lane to Rinconada Canyon. The traffic count is reduced for the number of non-reportable vehicles (130 per month). The reduced traffic count is multiplied by the (PPV) multiplier of 2.5. To adjust for duplicate reporting only eighty percent of Rinconada Canyon is reported as additional visitors.
3. An inductive loop traffic counter is installed on the entrance lane to Boca Negra Canyon. The traffic count is reduced for the number of non-reportable vehicles (reported by city partners). The reduced traffic count is multiplied by the (PPV) multiplier of 2.5. To adjust for duplicate reporting only forty percent of Boca Negra Canyon is reported as additional visitors.
4. An inductive loop traffic counter is installed on the entrance/exit lanes to Volcanoes. The traffic count is divided by two to adjust for vehicles entering and exiting. The adjusted traffic count is reduced for the number of non-reportable vehicles (130 per month). The reduced traffic count is multiplied by the (PPV) multiplier of 2.5.

Recreation Visitor Hours

Total recreation visitors are multiplied by 2.0 hours per visit.

Special Use Data

- | | |
|---------|---|
| Line a. | Visitor Center visitors |
| Line b. | Rinconada Canyon visitors (non-adjusted) |
| Line c. | Boca Negra Canyon visitors (non-adjusted) |
| Line d. | Volcanoes visitors |
| Line n. | Number of buses |
